

MOBILEMONEY™

ATM convenience. Anywhere.

THE COMPANY

MOBILEMONEY™ is the largest provider of mobile ATM services throughout the United States. For more than eight years, we have managed the needs of the country's largest fairs, festivals, and special events – firmly establishing ourselves as the industry leader in this market niche. Today, we are creating new applications for stand-alone indoor and outdoor ATMs that can be installed and accessed anywhere.

TRANSACTION PROCESSING

A key ingredient to any successful ATM program is quality transaction processing. Our network sponsorships ensure the highest percentage of approved customer transactions to the various banking, debit, and credit card networks – nationwide. The standard network configurations include *Cirrus®*, *Plus®*, *VISA®*, *MasterCard®*, *American Express®*, and *Discover®*.

CASH MANAGEMENT

The number-one reason for an ATM malfunction is the mismanagement of cash. We continuously monitor the status of every ATM, overseeing transaction volume and managing daily cash flow. Our cash management services include forecasting, ordering, delivery, ATM balancing, journaling, monitoring, Regulation E claims, and account balancing.

ARMORED CAR SERVICE

Our administrative staff carefully calculates each cash order drawn against our \$15 million line of credit and our trained professionals discreetly deliver it in armored vehicles. MOBILEMONEY™ utilizes company trained personnel for all armored cash transport. By placing responsibility for cash replenishment internally, we ensure immediate response to any cash issues. Our systems of control guarantee maximum performance of all of our ATMs.

MAINTENANCE AND TECHNICAL SUPPORT

Customers expect an ATM to perform when they need money. To meet these expectations, our technical support team is always available to provide maintenance and technical support. *Triton Connect*, *Tranax RMS*, and *Tidel AIMS* software enable remote monitoring, diagnostic repair, and malfunction resolution. When an ATM malfunctions, our technicians are notified and dispatched to your site for immediate resolution.

MONTHLY PAYMENTS AND REPORTS

On a monthly basis, MOBILEMONEY™ will mail you revenue checks along with written reports. On-line reporting allows you to view real-time transactions, monthly statements, and other reports directly from our host processor. With a few simple key strokes, you can have all the information you need to manage your investment, no matter where you are located.

MOBILEMONEY™
ATM convenience. Anywhere.
